(437) 970 9214

olasodeadeyemi@gmail.com

Kitchener, Ontario, Canada

Technical Skills

Programming Languages: Javascript, Typescript, Python, Go

Frameworks: React, Angular, NextJS, Flask, Django, FastAPI, Node, Express

Databases: SQL, PostgreSQL, Redis, Firestore, NoSQL, Elasticsearch, SQLAlchemy, Neo4j, Spanner, Graph

Cloud Platforms: Google Cloud Platform, AWS, Lambda, Cloud Functions

Tools & Technologies: Bazel, Cypress, Jest, Testrail, Workato, Jira, CI/CD, Kubernetes, Docker, Sentry, Terraform, Prefect, APIs, AI, LLMs, AI Agents

Work Experience

Senior Software Engineer

Scinapsis Analytics Inc. (BenchSci)

Sept 2022 – Present

Gen AI and Web Applications

Toronto, Canada

- Optimized Elasticsearch queries and restructured data models for millions of datasets, reducing search latency by 60%
- Led critical projects (Unified Organism Filter, Clinical Trial Data module, Drug Filter), ensuring alignment with stakeholder requirements
- Authored and presented comprehensive technical design documents to the Design Council, outlining architecture and implementation strategies for new features.
- Executed large-scale client data migration within tight timelines
- Built an AI assistant using RAG that helps scientists in understanding disease biology
- Mentored engineers, conducted code reviews, and onboarded new team members to foster a collaborative culture
- Technology stack: GCP, LLM, Llamaindex, Python (Django, FastAPI), Typescript (React), Postgres, Neo4j, Spanner, Event Driven Systems, Cypress, Sentry, OpenTelemetry, Arize, Grafana, Storybook

Senior Backend Engineer

Notch Ordering Inc.

May 2021 – August 2022

Payment team

Toronto, Canada

- Developed NotchPay, an integration with the Balance platform that supports B2B checkout, resulting in over 1M+ CAD in revenue and providing customers with an intuitive checkout experience.
- Developed a Workato automation for processing payment receipts, enabling over 500K+ CAD in offline orders and facilitating smoother integration with offline businesses.
- Mentoring, code pairing, and unblocking other engineers.
- Created several API endpoints for frontend applications with unit and integration tests for reliability.
- Write technical documentation, including README files, architectural designs, Acceptance criteria, and implementation plans. Also led conversations on code quality.

- Set up continuous integration and deployment using CircleCI.
- Technology stack: Python(Django), Postgres, GCP, Pub/Sub, Kubernetes, React, Jira, Workato

Senior Software Engineer
 Mobile, Web, Microservice

Wellio Inc. (Acquired by Kraft-Heinz)
 San Francisco, USA (Remote)

Feb 2018 – Apr 2021

- Created a notification system that helps increase user retention from 3% to 6.3%.
- Implemented Stripe payment integration in a React Web app to generate revenue.
- I work with several Google Cloud applications such as Cloud endpoints, BigQuery, Datastore, Kubernetes, Data Studio, etc.
- Containerization of apps using Docker to improve engineers' experience and increase productivity.
- Mentoring, code pairing, and unblocking other engineers.
- Securely provide public endpoints using the openAPI spec.
- Deploy multiple Firebase cloud functions to support event-driven processes.
- Implemented a performance monitoring system to determine bottlenecks, which led to optimizing the architecture of some parts of the application.
- Implemented third-party integrations such as Amazon Fresh and Instacart.
- Technology stack: Python, React Native, Typescript, Styled-Components, ExpressJS, Node, Ionic, Angular, Cordova, Flask, SASS, HTML5, Docker, Kubernetes, SQLAlchemy, Firebase, Firestore, Jest, Mocha, Jira, Zendesk, Miro, Figma, Mailchimp, Segment, Sentry, Redis, RainforestQA.

Senior Full-stack Engineer
 Contractor

Andela
 New York, USA (Remote), Lagos, Nigeria

Feb 2017 – Apr 2021

- Built and led a team of 4 high-performing engineers.
- Delivered high standards on Mozilla's open-source project (Balrog), which led to a partnership with Mozilla to allow junior developers to contribute.
- Recruit and mentor junior developers.

Certification

• Google Cloud Engineer - Associate	2025
• DeepLearning.AI Data Engineering	2024
• Workato Automation Pro II	2022
• Workatio Automation Pro I	2022

Education

• Master's Degree in Information and Communication Technology Federal University of Agriculture, Abeokuta Ogun State, Nigeria	2015 – 2018
• Bachelor’s Degree in Computer Engineering - Second Class Upper Division Ladoke Akintola University of Technology, Ogbomosho Oyo State, Nigeria	2006 – 2011
